INDEX TO VOLUME 37

PAGE

Aaron, A. H.: Enzymic activity of duodenal contents following ingestion of pancreatin 408
Gastric secretion in diabetes mellitus, report of 10 diabetic patients who had diarrhea and achlorhydria..... 674
Abramson, H. A.: Excretion of phenolsulphonephthalein in obstructive jaundice 291
Acriflavine, effect of intravenous injections of, in sepsis..... 445
Acromegaly and diabetes, relationship between 489
Adams, S. F.: Seasonal variation in onset of acute diabetes; age and sex factors in 1,000 diabetic patients..... 861
Albuminuria, relation of, to protein requirement in nephritis 153
Allen, M. S.: Carbon monoxid poisoning; comparison of present methods of treatment 398
Alvarez, W. C.: Blood pressure in women as influenced by sexual organs..... 597
Anderson, H.: Experimental renal insufficiency: effects of high protein diet in presence of low renal function on kidneys, aorta and liver; changes in blood pressure and concentration of blood metabolites; controls on normal diet.. 297
Experimental renal insufficiency: effects of high protein diet in presence of low renal function on kidneys, aorta and liver; changes in blood pressure and concentration of blood metabolites; protein diet experiments..... 313
Andrews, E.: Water metabolism..... 82
Water metabolism; dehydration fevers.. 815
Water metabolism; further observations. 559
Anemia, acute febrile: new disease?..... 244
Aortic insufficiency, Corrigan's description of 780
Aortitis syphilitic, paroxysmal dyspnea as symptom of 264
Arrhythmia, effect of digitalis on ventricular premature contractions..... 562
Arteriosclerosis and increased blood pressure: experimental production..... 733
Arteritis, chronic and acute, of pulmonary artery and patent ductus arteriosus.. 473
Aschner, P. W.: Healing of gastric ulcers. 217
Ascites, therapeutic use of diets low in water and in mineral content..... 550

Bacillus, typhoid, peculiar forms of infection caused by 32
Barach, A. L.: Methods and results of oxygen treatment in pneumonia..... 186
Bell, E. T.: Comparison of acute rheumatic and subacute bacterial endocarditis 66
Bergeim, O.: Intestinal chemistry; salivary digestion in human stomach and intestines 110
Beriberi, experimental, gastric secretion in. 212
Blood changes in antepartum and postpartum period of young mothers..... 725
changes in respiration, in circulation and in coagulation time of blood from sodium citrate injections..... 248
effect of lead and radium on mature and immature red blood corpuscles..... 715

Blood—Continued PAGE
hemoglobin, color index, saturation index and volume index standards, redeterminations based on findings in 137 healthy young men..... 685
in smallpox during a recent epidemic.. 660
inorganic phosphorus and calcium of, in nephritis 233
pressure; experimental renal insufficiency 297, 313
pressure, in women as influenced by sexual organs 597
pressure, increased, and arteriosclerosis; experimental production 733
relation of erythrocyte sedimentation reaction to ability of flocculation of plasma and serum 848
sugar curves in epidemic encephalitis.... 102
sugar, hyperglycemia; physical and chemical studies of blood in diabetes..... 18
sugar, pressure on central nervous system in its relation to hyperglycemia; chronic piqûre 567
Bloomfield, A. L.: Method for continuous quantitative estimation of gastric secretion and discharge in man..... 819
Bockus, H. L.: Value of starch-iodin reaction as test of pancreatic function.. 431

Book Reviews:
Diseases of the Bronchi, Lungs and Pleura; F. T. Lord..... 151
Introduction to Dermatology; N. Walker. 865
Medical and Surgical Report of Roosevelt Hospital, New York..... 596
Medicine: An Historical Outline; M. G. Seelig 152
Modern Medicine, Its Theory and Practice in Original Contributions by American and Foreign Authors..... 451
Pathology of Tumors; E. H. Kettle..... 866
Scientific Reports from Government Institute for Infectious Diseases, Tokio Imperial University. Volume III; M. Nagayo 865
Stomach and Upper Alimentary Canal in Health and Disease; T. I. Bennett..... 596
Syphilis und Innere Medizin; I. Teil: Die Arthrolues Tardiva und Ihre Therapie; H. Schlesinger 451
Text Book of Pathology; F. Delagield and T. M. Prudden..... 452
Traitement du Diabete; P. Escudero..... 151
Troubles de la Fonction Gastrigue et Syndromes Associés chez les Tuberculeux Pulmonaires (La Toux Emétisante); P. Marsal..... 865
Bowen, B. D.: Gastric secretion in diabetes mellitus; report of 10 diabetic patients who had diarrhea and achlorhydria 674
Briggs, A. P.: Some metabolic aspects of calcium therapy 440
Brill, I. C.: Acute febrile anemia: new disease? 244
Bulger, H. A.: Relation of albuminuria to protein requirement in nephritis..... 153
Burrows, M. T.: Mechanism of cancer metastasis 453

Cajori, F. A.: Physiology of synovial fluid 92

PAGE

Calcium therapy, metabolic aspects of.... 441
Cancer metastasis, mechanism of..... 453
Carbon monoxid poisoning; comparison of present method of treatment..... 398
Cerebrospinal Fluid, refractometric and viscosimetric indexes of..... 144
Clawson, B. J.: Comparison of acute rheumatic and subacute bacterial endocarditis 66
Clendening, L.: Corrigan's description of aortic insufficiency 780
Copper, hemochromatosis and chronic poisoning with 336
Counseller, V. S.: Primary carcinoma of liver 363
Crohn, B. B.: Healing of gastric ulcers.. 217
Crouter, C. Y.: Physiology of synovial fluid 92
Crowell, C.: Pressure on central nervous system in its relation to hyperglycemia: chronic piqûre 567

Diabetes Mellitus, and acromegaly, possible relationship between 489
gastric secretion in; report of 10 patients who had diarrhea and achlorhydria... 674
hyperglycemia; physical and chemical studies of blood in diabetes..... 18
seasonal variation in onset of acute diabetes; age and sex factors in 1,000 diabetic patients 861
Diathesis, hemorrhagic, relation of thrombocytes to 414
Diet, therapeutic use of diets low in water and in mineral content..... 550
Digitalis, effect of, on ventricular premature contractions 562
Ductus arteriosus, patent, and chronic and acute arteritis of pulmonary artery.. 473
Duodenal and gastric ulcer; theoretical and clinical studies 541
contents, enzymic activity of, following ingestion of pancreatin..... 408
Dyspnea, paroxysmal, as symptom of syphilitic aortitis 264

Edema, therapeutic use of diets low in water and in mineral content..... 550
Eldridge, W. A.: Carbon monoxid poisoning; comparison of present method of treatment 398
Electrocardiogram, effect of heart muscle disease on 42
Encephalitis, epidemic, blood sugar curves in 102
Endocarditis, acute rheumatic and subacute bacterial, comparison of..... 66
Erythrocytes: See under Blood
Eyster, J. A. E.: Estimation of transverse cardiac diameter in man..... 707

Farnum, M. B.: Gastric secretion in experimental beriberi in dog..... 212
Fejgin, M.: Peculiar forms of infection caused by bacillus of typhoid fever.. 32
Fevers, dehydration; water metabolism... 815
Fishberg, M.: Diagnosis of pulmonary neoplasm 745
Foshay, L.: Hyperglycemia; physical and chemical studies of human blood from cases of diabetes mellitus..... 18
Fried, B. M.: Effect of liver damage on cholecystography in dogs by use of sodium tetra-iodophenolphthalein..... 388
Friedlander, A.: Occupational disease among zinc workers 641

PAGE

Gallbladder, effect of liver damage on cholecystography in dogs by use of sodium tetra-iodophenolphthalein 388
Garland, R.: Arteriosclerosis and increased blood pressure; experimental production 733
Glucose tolerance, liver injury in thyrotoxicosis as evidenced by decreased functional efficiency 1
utilization, in renal glycosuria..... 88
Glycosuria, renal, glucose utilization in.... 88
Goiter, exophthalmic a follow-up study of cases treated with roentgen ray..... 627
Gold, H.: Effect of digitalis on ventricular premature contractions 562
Grabfield, G. P.: Blood sugar curves in epidemic encephalitis 102

Handelman, I.: Blood changes in antepartum and postpartum period of young mothers 725
Heart disease, intradermal salt solution test in, in children 281
disease, parallelism in treatment of tuberculosis and 118
estimation of transverse cardiac diameter in man 707
muscle disease, effect of, on electrocardiogram 42
Held, I. W.: Relation of thrombocytes to hemorrhagic diathesis 414
Hemochromatosis and chronic poisoning with copper 336
Hemoglobin, color index, saturation index and volume index standards, redeterminations based on findings in 137 healthy young men..... 685
Hodges, F. J.: Estimation of transverse cardiac diameter in man..... 707
Hoover, C. F.: Diagnostic aid in evaluating the vigor of inspiratory costal excursion 773
Howk, H. J.: Parallelism in treatment of tuberculosis and cardiac disease..... 118
Hyperglycemia: See Blood Sugar

Icterus Index: See also under Jaundice
biliary system function tests..... 797
Ikeda, K.: Blood in smallpox during a recent epidemic 660
Inspiratory costal excursion, diagnostic aid in evaluating the vigor of..... 773
Insulin action, mechanism of..... 512
Intestinal chemistry; salivary digestion in human stomach and intestines..... 110

Jaundice, obstructive, excretion of phenolsulphonephthalein in 291
Joannides, N.: Changes in respiration, in circulation and in coagulation time of blood produced by sodium citrate injections 248
John, H. J.: Possible relationship between acromegaly and diabetes with report of 3 cases 489

Kasanin, J.: Blood sugar curves in epidemic encephalitis 102
Keefer, C. S.: Method for continuous quantitative estimation of gastric secretion and discharge in man..... 819
Paroxysmal dyspnea as symptom of syphilitic aortitis 264
Keith, N. M.: Therapeutic use of diets low in water and in mineral content.. 550
Kidney, excretion of phenolsulphonephthalein in obstructive jaundice..... 291
insufficiency: experimental 297, 313

PAGE

Kohn, L. A.: Acute mercuric chlorid poisoning 225

Landau, A.: Peculiar forms of infection caused by bacillus of typhoid fever.. 32
Lasersohn, M.: Confirmatory sign of free fluid in pleural space; preliminary report 793
Lead, effect of radium and, on mature and immature red blood corpuscles..... 715
Leukocytic activity, evidence of nervous control of, by involuntary nervous system 268
Levinson, A.: Refractometric and viscosimetric indexes of cerebrospinal fluid.. 144
Lintz, J.: Effects of intravenous injections of acriflavine in sepsis..... 445
Liver, cancer, primary 363
effect of liver damage on cholecystography in dogs by use of sodium tetraiodophenolphthalein 388
function tests; biliary system function tests 797
function tests; detoxication by liver.... 257
injury, in thyrotoxicosis as evidenced by decreased functional efficiency..... 1
Lungs, cancer, diagnosis of 745

McCord, C. P.: Occupational disease among zinc workers..... 641
McIndoe, A. H.: Primary carcinoma of liver 363
Mallory, F. B.: Hemochromatosis and chronic poisoning with copper..... 336
Master, A. W.: Effect of heart muscle disease on electrocardiogram..... 42
Mercuric chloride poisoning, acute..... 225
Metabolism, metabolic aspects of calcium therapy 440
water metabolism 82, 559
water metabolism; dehydration fevers... 815
Moersch, H. J.: Vital capacities of 1,000 surgical patients 128
Mueller, E. F.: Evidence of nervous control of leukocytic activity by involuntary nervous system 268
Mechanism of insulin action..... 512
Murphy, W. P.: Biliary system function tests 797
Myers, V. C.: Inorganic phosphorus and calcium of blood in nephritis..... 233

Nephritis, inorganic phosphorus and calcium of blood in..... 233
relation of albuminuria to protein requirement in 153
Nervous System, evidence of nervous control of leukocytic activity by involuntary nervous system 268
pressure on central nervous system in its relation to hyperglycemia: chronic piqûre 567
Nuzum, F. R.: Arteriosclerosis and increased blood pressure; experimental production 733

Occupational disease among zinc workers.. 641
Olmsted, H. C.: Intradermal salt solution test in cardiac disease in children.... 281
Osborne, M.: Arteriosclerosis and increased blood pressure; experimental production 733
Osgood, E. E.: Hemoglobin, color index, saturation index and volume index standards, redeterminations based on findings in 137 healthy young men.... 685
